

What are ERPAs?

- Emergency Response Planning Areas (ERPAs) are geographic zones located mostly in southern New Castle County Delaware, within the ten-mile Emergency Planning Zone (EPZ), from the Salem and Hope Creek Generating Stations.
- ERPAs are used to quickly describe which geographic area is affected by an emergency.

What's New?

- ERPAs have been combined using easily recognized boundaries such as major roadways, towns, waterways, etc.
- There are now four ERPAs instead of ten.
- New ERPAs are color coded (orange, blue, green, pink) and have corresponding letters (A, B, C, D).
- The four new zones have been successfully tested in radiological exercises conducted by DEMA.
- New ERPAs are used to simplify notification for sheltering and evacuation of residents, visitors, schools, businesses and other facilities within the ten-mile EPZ.
